

## The High Priestess

The Universe sparkles, shines, and shares its  
Beautiful radiance with those able to connect  
To higher purposes and energy  
Far beyond concealed, sealed, and open  
Playrooms of ego  
And elephantine selfish, lustful desires  
That otherwise pervert and corrupt  
This sacred light.

Like a crystalline amplifier,  
The High Priestess casts powerful spells  
From and of this divine light within  
and without her.

Her intents are as pure and deep  
As the underpinning harmonic vibration  
Of tone and overtone  
Creating absolute vibration,  
Free from discord.

Harmful, selfish intents  
That dim and weaken the inner and outer light  
Have no place here  
And are quickly dispatched by the High Priestess's  
Keenly accurate and powerful  
Ibis bow and arrow  
When they try to encroach on her sacred fields.

Her swift arrows fly true as truth, blocking  
All unworthy access and communion with her  
Mysterious, magnificent, and marvelous  
Energy of which most of us  
Get only a glimpse or passing breeze  
--if we are lucky.
